

Mount Notre Dame Graphing Calculator Information

Every freshman at Mount Notre Dame is required to have a graphing calculator which will be used in her math classes throughout her four years and can be used on the ACT test.

The graphing calculator is necessary along with the tablet PC because a calculator is permitted on standardized testing such as ACT and Advanced Placement exams, and testing required for graduation while the tablet PC is not allowed for most testing.

Calculator Options

The Mount Notre Dame Mathematics Department has adopted the use of Texas Instruments **TI-84 Plus CE** graphing calculators.

Acceptable calculators for use during your four years at Mount Notre Dame are:

- TI-84 Plus CE
- TI-84 Plus Silver Edition
- TI-84 Plus C Silver Edition
- TI-84 Plus

Unacceptable calculators (which are not permitted on the ACT test) are:

- TI-89 family
- TI-92 family
- TI-Nspire with CAS capabilities (CAS – Computer Algebra System which allows symbolic equation solving)

Please address calculator questions to Paula Schute via email at pschute@mndhs.org.
